Fake news, scandale Facebook-Cambridge Analytica, virus WannaCry : de la propagande djihadiste à l'ingérence électorale et de la manipulation ciblée à la cyber-attaque tous azimuts, le nouveau conflit mondial a commencé. Il a pour champ de bataille virtuel Internet. Il change la donne politique, bouleverse l'ordre géopolitique, multiplie les capacités et les formes d'agression. Il abolit la distinction entre la guerre et la paix, la sécurité et la liberté, les oligarchies et la démocratie. De Moscou à Washington, en passant par Tel Aviv, Téhéran, Londres ou Paris, mais aussi des laboratoires secrets de la Silicon Valley aux agences de renseignement du Vieux-Continent, voici, enfin révélée, la vraie face cachée de la globalisation numérique. Dévoilant les acteurs, les épisodes et les dessous des cartes de cette lutte planétaire, décryptant l'état des forces et des enjeux, des risques et des menaces, dessinant les scénarios de demain, ce livre sans précédent, informé et percutant, nous place face à l'urgence de rompre avec l'ignorance ou la passivité. Un grand document qui se lit

comme un thriller. Un cri d'alerte indispensable sur notre proche avenir. Un manuel de résistance à la guerre permanente de l'information.

School of Business and Department of Economics at the National University of Singapore Png was previously a faculty member at the UCLA Anderson School of Management from 1985 to 1996 and the Hong Kong University of Science and Technology from.
